

PREVENTATIVE MAINTENANCE PROGRAM (PMP)

In order to maintain maximum performance of your LearyVIEW Print inspection system, we highly recommend you take advantage of our PM program which includes a Software Support Plan. A service technician will come on-site to perform all preventive maintenance tasks and upgrades as recommended by Leary and our component suppliers.

SERVICES PERFORMED

EyeC Vision System

- Clean and adjust all relevant camera components.
- Perform all required camera calibration tasks.
- On-site update training for quality managers and system operators.
- Includes Software Support Plan (SSP).

Leary In-Line Delivery System

- Exchange air filter.
- Check all bearings and moving parts, lubricate where required.
- Replace all transfer belts.
- Inspect drive belt for wear.
- Inspect encoder.
- Test and calibrate product tracking.
- Test vacuum system and carton delivery.

Note:

- Folder gluer must be decommissioned for a period of 4-6 hours.
- Additional parts required will be added to the service invoice.
- Date of test and calibration will be attached to the unit.
- Service report will be sent upon conclusion of visit.

Software Support Plan (SSP)

Leary recommends a Software Support Plan be purchased annually for each system. Program upgrades (typically two per year) can be performed during the PM visit or downloaded remotely.

- All updates to the latest software version as they become available.
- All security patches as necessary.
- All bug fixes as necessary.
- Unlimited remote support for operations issues.
- All updates to maintain current Adobe PDF standards.

If the SSP is not active and an upgrade is needed, there will be an additional charge for each year that the system has not been a part of the program.

Cost Per Year, Per Unit

4K Color Camera option \$4,400
8K Color Camera option \$4,920

This fee is included if the annual PMP is purchased.

TOTAL PREVENTATIVE MAINTENANCE PLAN INVESTMENT

Includes (2) travel days, (2) plant days, plus expenses

4K Color Camera: \$9,800

8K Color Camera: \$10,300

(cost per year, per unit)
