

Leary Service

Solutions

Leary Service Program

A preventative maintenance program is essential to getting the most out of your Leary system. Utilizing Leary systems to their full potential results in the added benefits of higher production speeds, shorter make readies, decreased downtime, less waste and improved quality. Leary offers two service programs which require a minimum of two visits within a twelve-month period.

Leary PLUS Program:

Provides a range of essential services suitable for every Leary system user at a discounted rate. Includes preventative maintenance of gluing and quality assurance functions, system audit and certification.

- ⚡ Initial meeting upon arrival to review quality issues, machine performance, system issues
- ⚡ Recommendations to improve quality issues and machine performance based on initial meeting findings
- ⚡ System audit to assess functionality and general condition of the Leary equipment
- ⚡ Challenge all extrusion and QA stations, including training on the challenge process
- ⚡ Setup and testing of Leary iQ remote access
- ⚡ System Certification for each system verifying functionality of all QA stations and the rejection device
- ⚡ Preventative maintenance to flush cold glue system, disassemble and clean all glue valves and filters, recommission and test
- ⚡ Purge hot melt tank (if applicable), replace filters, check glue valves, recommission and test
- ⚡ Assist operators with any questions about the Leary system
- ⚡ Final meeting to review the system audit and provide recommendations for improvements to address identified issues

Leary PLATINUM Program:

Provides reliable and immediate support for systems operating in the most demanding production environments. Suitable for larger users and those relying on the highest uptime performance.

- ⚡ Includes all benefits of LearyPLUS program
- ⚡ 24 hours, 7 days per week technical support hotline
- ⚡ Free LearyNET Remote Access for all iQ enabled systems
- ⚡ Discounted controller upgrade packages to keep systems current, including adding iQ capabilities
- ⚡ Free rental controllers available during system upgrades and repairs
- ⚡ 50% discount on iQ Dashboard cloud based data collection and reporting
- ⚡ Monet software upgrades to ensure latest features and optimum system performance
- ⚡ Priority handling of spare parts orders

Leary Training Program

The Leary Training Program is an on-site program provided by a certified Leary Technician for machine operators and supervisors. This program is designed to provide structured, standardized training and empower operators with the knowledge necessary to run at peak performance. This program requires a minimum of two visits within a twelve-month period at a discounted rate.

Leary TRAIN Program:

- ⚡ Initial meeting upon arrival to analyze current knowledge levels and usage inconsistencies
- ⚡ Review of SOPs and challenge procedures with recommendations for improvements if necessary
- ⚡ Review of Leary system installations to ensure correct customized training
- ⚡ Classroom training including a PowerPoint presentation and workbook handout
- ⚡ Hands-on classroom training with relevant software and sensors (provided by Leary)
- ⚡ Pre and post training assessments to ensure proper training and knowledge of equipment
- ⚡ Focus on achieving maximum throughput, improving quality and minimizing waste
- ⚡ Includes 1-point lesson material for most commonly used equipment
- ⚡ Maximize learning without interrupting machine availability
- ⚡ Operator certification upon completion of the training
